Alex

*Attached are my latest comments for the project from October 2006. As I see it, one of the critical items is the submittal of a complete SWPPP for the project. I have no record of receipt or any review.*

*Please confirm it was done, and if not yet submitted, please get it in ASAP.*

Mark

Mark,

Alex was trying to contact you a few times this week about moving this project forward and scheduling it for the planning board meeting. Please call this office at your earliest convenience. The client is calling here every day for progress.
